

Interact with anyone, anywhere, any time
to finish projects faster.

Share applications, presentations,
documents—even your PC desktop in
real time.

Take care of business more efficiently than
with back-and-forth e-mails.

Work with teams across the map—all you
need is an internet connection.

Maximize your resources by bringing
people together without the time and
expense of travel.

Move projects through faster and boost growth for all facets of your organization. Incorporate WebEx Meeting Center™ into your business process and empower your workforce with online collaboration.

Bring remote designers and engineers together to review
the latest plans. Conduct regular meetings between
geographically scattered staff members. Hold lively creative
sessions with your marketing and advertising teams. Make
WebEx Meeting Center available to every department and
watch productivity soar.

Meet over the web in real-time.

It's simple. Launch or join a meeting using any web browser.
Communicate information and share documents, presenta-
tions, and applications just as if you were together in person.
Pitch ideas. Demonstrate products. Discuss the hot issues.
Involve everyone you need—regardless of location.

Coordinate meetings easily.

Meeting Center features PowerPanels™ to help you keep
everything running smoothly with separate attendee and host
views. Deliver clear, interactive full-screen presentations and
documents to participants. Manage meetings functions with
control panels behind the scenes without distracting anyone.

Count on WebEx for secure, scalable service.

WebEx Meeting Center is delivered on demand over the
WebEx MediaTone™ Network, a private global network. No new
software or hardware is required, making it easy to
implement and easy to scale your needs change. The
MediaTone Network offers better than 99.99% reliability, as
well as robust security. Your information is never persistently
stored on our servers and 128-bit SSL and AES encryption
ensures all your meetings are private and secure. And WebEx
is SAS 70 and WebTrust™ certified.

“WebEx has increased our productivity and became the de
facto online meeting standard. We average 4000 meetings
a month, many of which would have required travel.”

— Rich Nielsen, Sr. IT Engineer, Agilent Technologies

Take advantage of powerful features to enjoy easy collaboration.

PowerPanels™

Deliver full-screen views for your attendees while you use controls to manage meeting activity privately behind the scenes.

In-Session Alerts

Get audio and visual alerts so you're aware of new attendees or chat messages, even when these panels are minimized.

Seamless Sharing Integration

Switch from document to application to desktop sharing without any transitions or distractions.

Rich Multimedia Experience

Engage your audience by incorporating multi-media in your presentations: PowerPoint™, Flash™ animations, and streaming audio and video.

Application Sharing

Share and control applications remotely in real time without uploading files to a server.

Document Sharing

View, annotate, and enlarge documents or graphics in high resolution for all to see.

Desktop Sharing and Remote Control

Make your meetings more effective — collaborate on content or share applications from your desktop.

Record, Edit, and Playback Meetings

Record meetings and applications for future reference, training, or demonstrations.

Desktop Integration Suite

Initiate meetings immediately from MS Office™, MS Outlook™, One-Click Meetings, and Yahoo!® Instant Messenger™.

Enterprise Integration

Use your single sign-on to access Meeting Center, and count on easy integration with other enterprise applications.

WebEx MediaTone™ Performance and Reliability

Conduct multi-point interactive meetings worldwide—without latency or interruptions.

Switched Network and 128-bit SSL Encryption

Hold even your most confidential meetings with complete confidence.

Video and Video Conferencing

Give your attendees a real-time visual reference. Simulate face-to-face meetings.

Integrated Telephony and VoIP

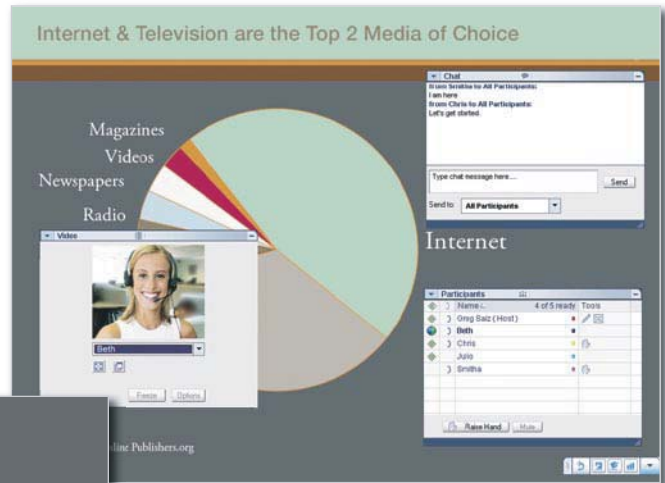

Keep conversation flowing with integrated audio. Choose between toll or toll-free teleconferencing with call-in or call-back options, or VoIP.

Cross Platform Support

Meet with anyone without worrying about what operating system they use. WebEx offers unmatched support for Windows, Mac, Linux, and Solaris.

Multiple Language Capabilities

Conduct meetings in your language of choice: English, Spanish, French, German, Swedish, Japanese, Korean, Simplified Chinese, or Traditional Chinese.

Floating PowerPanels allow the host to view attendee list, chat, and video activity during a meeting—but are invisible to attendees.

When PowerPanels are minimized indicators on the toolbar alert the host to any activity in these windows.

Attendees get a clear full-screen view with a discreet toolbar for navigation.

Minimum Windows Requirements

Windows 98 and higher, 400MHz Processor with 128MB RAM, 56K Internet connection.

Web Browser Support: Internet Explorer 5.x and 6, Mozilla 1.6, Netscape 4.7, 7.

Other Platforms Supported

Mac OSX 10.2 or higher, Linux, Solaris 8 and 9.

For the latest platform requirements, visit our web page.
