

Deliver a rich, engaging classroom experience over a web browser.

Engage trainees with interactive, media-rich instruction.

Train more people faster and more frequently.

Quiz, poll, and test trainees to ensure retention and track productivity.

Slash travel, rental, and venue costs from your training budget.

Increase business opportunities and revenue.

Reduce training delivery costs with the industry's most interactive online classroom. Make every class a success with WebEx™ Training Center.

Drive product adoption by offering your customers easy access to web-based training. Educate your channel partners and your field reps regularly, so they always have current information. Train global employees to advance their skills or push revenue-generating initiatives to market faster. Whatever your training goals, WebEx Training Center will help you provide an exceptional training experience.

Engage learners with lively, interactive instruction. Share powerful presentations, stream media modules or live video, and even pass control to attendees to demo applications. Set up hands-on labs so students can practice and review before, during, or after your training sessions. Track performance with robust testing, grading, and polling tools. Then leverage your investment by creating a digital archive of training sessions for self-paced study on demand.

Decrease costs and increase revenue. Provide training for anyone, anywhere without spending your budget on venues and travel expenses. You'll save a bundle. You can even transform your training program into a strategic revenue center by using Training Center's self-service registration and payment features.

Count on WebEx for secure, scalable service.

WebEx Training Center is delivered on demand over the WebEx MediaTone™ Network. No new software or hardware is required, making it easy to implement and easy to scale as your training needs grow. The MediaTone Network offers better than 99.99% reliability, as well as robust security. Your information is never persistently stored on our servers and 128-bit SSL and AES encryption ensures all your training sessions are private and secure. And WebEx is SAS 70 and WebTrust™ certified.

“With only two trainers and WebEx Training Center, our retail branch was able to train 2,300 employees in 68 national offices around the world in just 3 weeks.”

— Sandy Kennedy Zachman, Corporate Training Manager, New Century Mortgage Corporation

Provide a compelling online learning experience using powerful features.

PowerPanels™

Deliver full-screen views for your learners while you manage training controls behind the scenes using floating panels to track attendee activity, respond to questions presented in chat, and review poll results.

Multimedia Training Content

Engage learners with PowerPoint™ presentations complete with animations, transitions, Flash, 3D objects, and streaming video.

Information Sharing

Share documents, demonstrate software, and sketch ideas on a whiteboard in real time. Add interest by creating data and annotating on the fly.

Hands-On Lab

Connect remote learners with remote computers, applications, and simulation before, during, or after live training sessions to reinforce learning with hands-on activities.

Breakout Sessions

Promote active learning by conducting multiple, simultaneous small group, collaborative activities. Trainers can “walk around the room” and see how each group is doing.

Q&A

Boost interaction with threaded Q&A showing questions and related responses.

Multiple Panelists

Maximize productivity. Bring in trainers from different locations to train collaboratively.

Video Integration

Show learners their trainer by sharing video from a web camera or video recorder.

Integrated Telephony

Choose toll or toll-free global teleconference with call-in or call-back options or VoIP.

Microsoft® Outlook™ Integration

Streamline scheduling using existing enterprise processes.

APIs and Standards Support

Extend your learning technology investments and ensure interoperability.

Testing and Grading

Assess comprehension, track individual performances, and share correct answers within a session. Leverage web-based libraries for pre- and post-session training.

Polls and Surveys

Measure session effectiveness and gather feedback for future sessions.

Registration and Reporting

Simplify session registration and easily track attendance.

Cross-Platform Support

Trainers and learners can participate from different environments. WebEx supports Windows, Mac, Linux, and Solaris operating systems.

Record and Playback

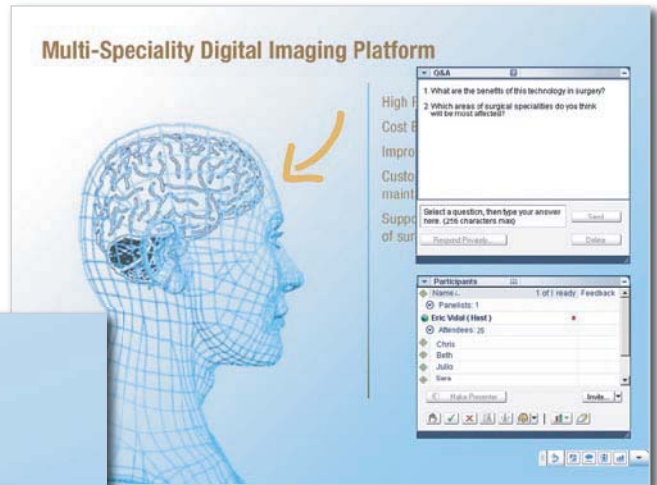

Record training sessions for reuse and review. Stream recordings within live sessions or post for learners to play back at their convenience.

On-Demand Presentations

Create and deliver on-demand training presentations and self-paced training sessions using Presentation Studio™, an integrated WebEx solution.

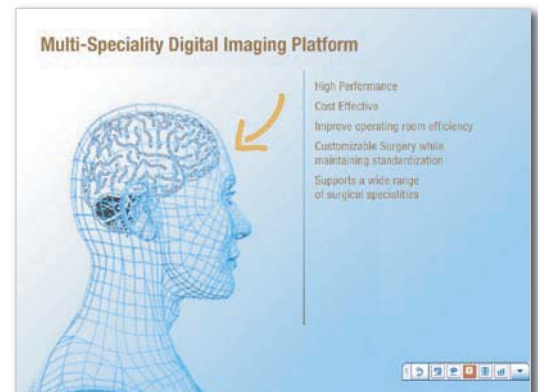

Automated e-Commerce

Create revenue-generating programs with self-service registration and payments.

Floating PowerPanels allow the trainer to view attendee list, Q&A, and other online classroom activity—but are invisible to learners.

When PowerPanels are minimized indicators on the toolbar alert the trainer to any activity in these windows.

Learners get an engaging full-screen view with a discreet toolbar for navigation.

Minimum Windows Requirements
Windows 98 and higher, 400MHZ processor with 128MB RAM, 56K Internet connection.
Web Browser Support: Internet Explorer 5.x and 6, Mozilla 1.6, Netscape 4.7, 7.

Other Platforms Supported
Mac OSX 10.2 or higher, Linux, Solaris 8 and 9.
For the latest platform requirements, visit our web page
